

Andrei

United Kingdom

andrei.cherciu24@gmail.com | LinkedIn | GitHub

Experienced software developer with over 2 years in software engineering, including specific expertise as a Front-End Engineer. Proven track record in Subscription Services and User Experience Design, complemented by a strong foundation in technology. Adept at creating user-facing features and ensuring software quality, positioning well for roles in dynamic environments.

WORK EXPERIENCE

QAShip

Full Stack Software Engineer

London, UK | Jun 2025 - Present

- Built the payment and subscription logic for Stripe, handling expiring subscriptions, resuming, pausing and cancelling.
- Shaped product direction and designed core features, including CI sync functionality that links test cases to automated pipeline results
- Wrote UI copy and product mockups, defining how users experience key workflows
- Co-founded QAShip, a keyboard-first SaaS test case management platform built for small QA teams as a free alternative to other major competitors.
- Led go-to-market activity ahead of launch, running outreach across multiple channels, including social media, developer communities and direct outreach, to build an early-access waitlist

Evexi Technology

Mid-Level Software Engineer

Wokingham, UK | Sep 2024 - Present

- Wrote automated integration tests with MSW to cover edge cases in Square Loyalty API responses, verifying loyalty point calculations before code reached production kiosks
- Developed and maintained front-end systems, including the admin portal used to manage signage devices and content, building responsive, type-safe interfaces in TypeScript
- Co-authored the technical specification for a QSR loyalty integration with the Square Loyalty API, covering API documentation, Figma UI view definitions and QA estimates
- Developed cross-platform digital signage and kiosk software across LG webOS, Samsung Tizen/SSSP and Android, building provider abstractions that unify platform-specific APIs behind a single interface

Visual Lab Media

Front-End Engineer

London, UK | Aug 2023 - Oct 2023

- Developed reusable, maintainable component libraries and managed complex application state to deliver a responsive, performant user experience
- Built a sophisticated front-end application in React, taking it from architecture and component design through to production release
- Worked closely with designers and back-end developers to turn requirements into polished, user-facing features

Swim4All

Full Stack Software Engineer

London, UK | Jun 2023 - Sep 2023

- Acted as the sole technical point of contact, turning business requirements into a live, maintainable platform
- Took ownership of DevOps and infrastructure, setting up domain, DNS, email and application hosting, and managing deployments to production

MakeBetterTogether

Front-End Engineer

London, UK | Jun 2023 - Sep 2023

- Worked closely with a back-end developer to design API contracts and integrate front-end features with the server, keeping delivery smooth and aligned

SKILLS

Expertise: React 19, NextJS 16, TypeScript, Web Development, Web Design

Languages: TypeScript, JavaScript, HTML/CSS

Frameworks & Libraries: React, Next.js

Dev Tools: Git, Node.js, Jira, Vercel

Spoken Languages: English

PROJECTS

ReChrome

Nov 2025 - Present

Designed and built Rechrome, a web app that lets developers find, download and run older versions of Chrome for cross-browser and legacy compatibility testing

Underground FiveM Project

Nov 2024 - Mar 2025

Led development of Underground Romania, a FiveM roleplay server, managing a small team and delivering gameplay and monetisation features for an active player community.

EDUCATION

Salesian College

Farnborough, UK

A-Level Qualification - Computer Science, Physics, Mathematics - GPA: A A A

Jan 2017 - Jan 2024

CERTIFICATIONS

CS50: Introduction to Computer Science | Harvard University

EXTRACURRICULAR ACTIVITIES

Tennis

Jun 2019

Competitive tennis player, representing my county and competing in national competitions while balancing a multi-session weekly training schedule alongside full-time work
